In view of applicants' response filed 6/20/02 the following applies.

An abstract is still needed. The cover page of applicants' WO publication is not considered part of the instant US disclosure. The case if ever allowed would not be processed by PTO staff unless an abstract on a separate sheet is provided.

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. The newly presented claim recites "formula (IV)" but there is no formula "(IV)" in the elected process. Formula "(VI)" was apparently intended.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1,9,10,17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zara for reasons of record. New claim 19 recites choices also taught by Zara as previously discussed on p.10-11. Applicants' traverse of this rejection is not persuasive. The fact that eg.41 is not anticipatory does not render the instant process unobvious given that hydrogen is expressly taught as a choice for this reaction. The fact that other products may or may not also form under a given

Art Unit: 1624

set of reaction conditions is not evidence of a patentable process where the same reaction conditions are embraced herein as in the prior art and where applicants' sole example employing instant process (eg.4) leaves 41% of unidentified components in reaction mixture. Thus contrary to applicants' assertion no evidence of a patentable distinction has been shown.

Claim 1 is objected to for containing nonelected subject matter, processes a2) through b4) which should be deleted in view of applicants' election without traverse.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 1624

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
